1. INTRODUCTION

The Grand iCinema is an Ethernet to HDMI/ VGA converter that allows you to use your HDMI TV as the primary display for your PC.

The Grand iCinema brings much convenience by allowing you to remotely control your PCs with a set of keyboard/ mouse, a HDMI display and a network connection. Imagine yourself sitting in front of your TV and you are still able to surf website, word processing, play game and watch movies. The Grand iCinema makes all of that possible.

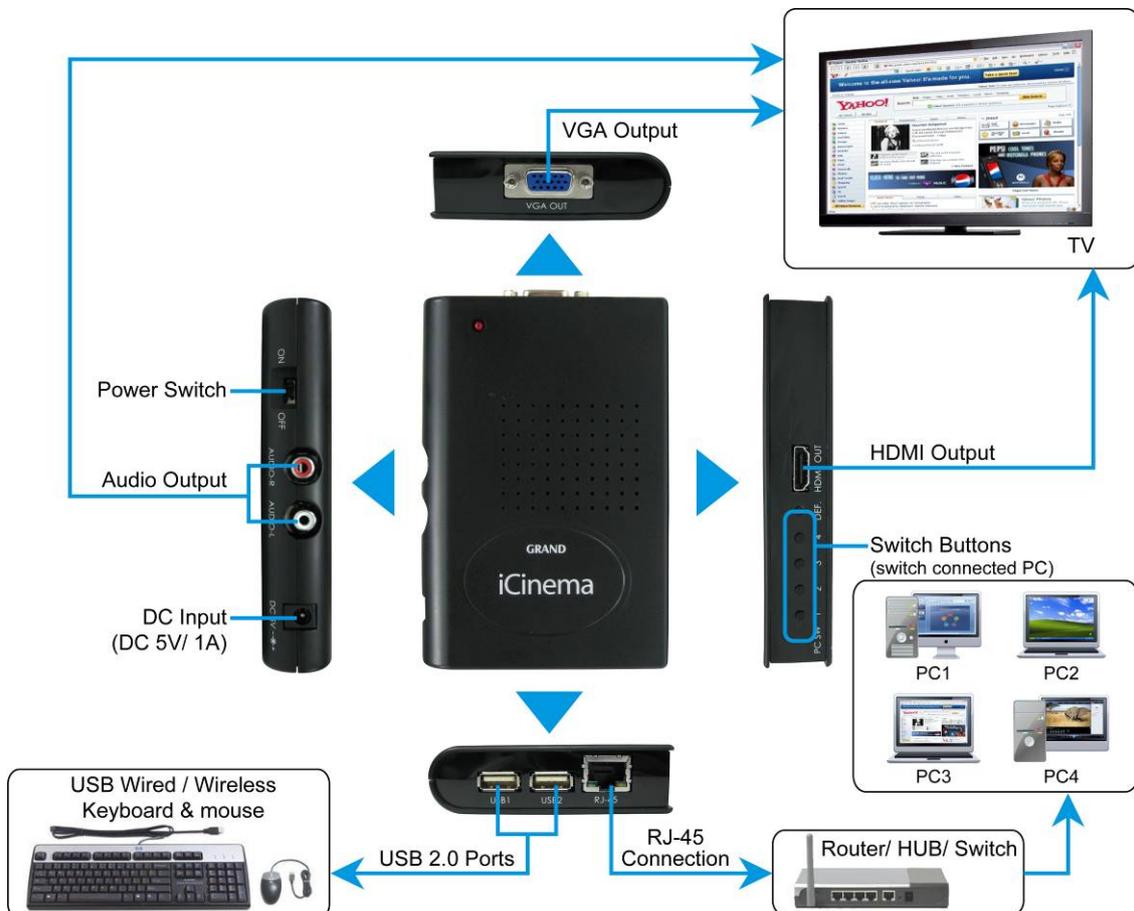

2. System Requirements

- Operating System: Microsoft Windows 7 (32bit & 64bit), Vista (32bit & 64bit) and XP (32bit).
- Processor: Intel Pentium Dual Core 1.8 GHz or above
- 1GB RAM or above
- Available USB 2.0 port
- 30Mb of available disk space

3. FEATURE

- HDMI output (including both video and audio output signals).
- Supports VGA output with audio output.
- Supports high resolution
 - HDMI Out: up to 1080p
 - VGA Out: up to 1920 x 1080
- Supports a 1000Base-T/ 100Base-TX/ 10Base-T RJ45 Ethernet.
- Easily switch between connected PCs (up to 4) by using buttons.
- Supports 2 USB 2.0 ports for connecting USB keyboard and mouse.
- Compatible with **Windows 7 (32bit & 64bit)**, **Vista (32bit & 64bit)** and **XP (32bit)**.
- Dimensions: 130(L) x 85(W) x 25(H) mm.
- Bundled Software:
 - Supports Distinct, Extended and Mirror Modes
 - Supports screen resolution and color quality adjustment in extended mode.
 - Allows you to rotate the screen on the add-on monitor by 90, 180 or 270 degrees
 - Supports online update automatically.
 - The software has been awarded Microsoft Windows Certification (Windows 7/ Vista/ XP).
 - **Sound Effects** like 10-band Equalizer and 27 environment effects can enrich user's audio experience and enjoyment.
