

**INFRARED ILLUMINATOR - 40M**  
**PRH-5440/5840**

## FEATURES :

- Indoor/Outdoor installation.
- High efficiency infrared LED, radiant distance - 40 meters.
- Sensor auto activate infrared LED under 10lux light level.
- Aluminum housing case with IP66 rating.
- Improve the image quality in low-light situation and in complete darkness.
- Aluminum PCB for fast heat dissipation.

## SPECIFICATION :

INFRARED ILLUMINATOR		
Model No.	PRH-5440	PRH-5840
Power Input Voltage	AC24V (±10%)	AC90~260V
Radiant Distance	40M (131ft)	
Infrared LED	Peak Wavelength	850nm
	Quantity	12 Units
	Angle	20°
	Power On	Sensor Auto Control
Window	φ 88 Heat Resistant Glass	
IP Rating	IP66	
Construction	Aluminum	
Power Consumption	7.2W	
Operating Temperature	-20°C ~ +60°C (-4°F ~ +140°F)	
Dimension	φ 100 x 185 mm	
Weight	1060g	

- \* Any attempt to disassemble the illuminator may hamper the waterproof ability of the illuminator.
- \* Design and specifications are subject to change without notice.
