

Introducing

The IVS Series IP Cameras

Intelligent Video Surveillance (Analytics) built-in

ADVANCED MOTION DETECTION

Detect motion and capture the events. Motion in the selected area will provoke an alert. Time of motion in given direction can be detected by simply drawing an arrow on the video.

TRIPWIRE DETECTION

Tripwire Detection can be used where physical security is impractical or even impossible; i.e. railway tracks. An alarm can be enabled in either directions across the tripwire. Line Crossing that an object crossing a line drawn anywhere in the scene can be detected, and also Zone Intrusion that any arbitrary shape zone can be set to monitor intrusion.

OBJECT COUNTING

Object Counting is able to accurately input images containing similar objects. Intelligent Object Counting technology includes People Counting feature – people enter or exit an area over time can be counted, as well as Vehicle Counting feature – to detect and track vehicle in real-time.

A variety of detection features to provide you detailed situational awareness

Including Face Detection, Tampering Detection, Audio Detection, Spectrum Detection, and Alarm Detection
