Release Note for Vigor204's call logging on Configuration Utility as regards the year calculation

1. Please run the "mdac_type.exe"
 2. Please copy the "vg204.exe" to your previous vg204set folder.
- Normally, you already stored the vg204set folder at C:\program files\vg204set

Then, you will be able to have correct year calculation of call logging function on Vigor204's Configuration Utility.
