

Release Note for Vigor2925 Series

Firmware Version: 3.8.2.3
Release Date: June 2, 2016
Applied Models:
Vigor2925 Series

Vigor2925 series is a broadband router which integrates IP layer QoS, NAT session/bandwidth management to help users control works well with large bandwidth. The state-of-art routing feature, VPN security, and Dual-WAN provide integrated benefits for professional users and small offices.

New Features

- None.

Improvement

- Corrected: Hardware Accelerator did not close unwanted sessions to speed up specified network session.
- Improved: Session validation method improved in Web UI.

Known Issue

- The WAN port can not work well with Alcatel I-040G device. The quick solution is to add another switch between Vigor2925 and Alcatel I-040G.

Notes

Modifications

- None
