

## Release Note for VigorAP 912C

Firmware Version:	1.4.2
Release Type:	Normal
Applied Models:	VigorAP 912C

VigorAP 912C is a ceiling-mount Wi-Fi for business networks. It has a capacity of up to 256 concurrent active users, ideal for a high-density environment such as a BYOD workplace. The low-profile appearance and PoE power supply provide the flexibility in deployment.

### New Features

- Support a new encryption mechanism for license obtaining, network connecting, and registering to the MyVigor server.

### Improvement

- Improved: Improve the mesh network stability.
- Improved: Improved the WiFi security (CVE-2020-26139 to CVE-2020-26145; CVE-2020-24586 to CVE-2020-24588).
- Corrected: An issue of the mesh node disconnecting from the mesh root.
- Corrected: An issue of log-out from the Web user interface through Internet Explorer.

### Known Issue

- None.
