Release Note for VigorSwitch G1241

Firmware Version: 1.2
Release Date: December 30, 2014
Applied Models:
VigorSwitch G1241

The 24-port Gigabit Web Smart Switch is a standard switch that meets all IEEE 802.3/u/x/z specifications. The switch has 24 10/100/1000Mbps TP ports. It supports telnet, http and SNMP interface for switch management. The network administrator can logon the switch to monitor, configure and control each port's activity. In addition, the switch implements the QoS (Quality of Service), VLAN, and Trunking. It is suitable for office application.
