## Preface

### Notice

The information in this manual was current when published. The manufacturer reserves the right to revise and improve its products. All specifications are therefore subject to change without notice. Formosa21 will not be obligated to the responsibility outside the scope of VPON DVR.

### Trademarks

VPON ® is a registered trademark of Formosa 21 Inc.

Microsoft, Windows, Internet Explorer ® are registered trademarks of Microsoft Corporation. Netscape, Navigator, Communicator ® are registered trademarks of Netscape Corporation. Other brand and product names referred to in this manual are trademarks or registered trademarks of their respective holders.

Trademarked names are used throughout this manual. Rather than place a symbol at each occurrence, trademarked names are designated with initial capitalization. Inclusion or exclusion is not a judgment on the validity or legal status of the term.

### Warning

To reduce risk of electric shock, do not remove cover. No user service-able parts inside. Refer servicing to qualified service personnel.

**Do not expose this appliance to rain or moisture.**

**Do not install this product in hazardous areas where highly combustible or explosive products are stored or used.**

Severe impact or vibration may cause malfunction.

Do not move this product when VPON is working.

Position it in an open space with flat surface, and also maintain at least 15 cm between the left and right sides of the body and the wall.

The lightning flash/arrowhead symbol, within and equilateral triangle, alerts the user to the presence of a shock hazard within the product's enclosure.

### GUARANTEE

Every care has been taken in the preparation of this manual; if you detect any inaccuracies or omissions, please inform FORMOSA21, INC. in Taiwan or your local distributor. FORMOSA21 cannot hold responsible for any technical or typographical errors and reserves the right to make changes to the products and manuals without your prior notice.

FORMOSA21 makes no warranty of any kind with regard to the material contained within this document, including, but not limited, the implied warranties of merchantability and fitness for a particular purpose. FORMOSA21 shall not be liable or responsible for incidental or consequential damages in connection with the furnishing, performance or use of this material.

#### Warranty does not cover

Damage caused by willful or accidental mishandling, removal of VPON warranty labels, environmental conditions, including, electrical surges. Warranty will be voided if any of these conditions occur.

### Important information

Before proceeding, please read and observe all instructions and warnings contained in this manual. Retain this manual with the original bill of sale for future reference and, if necessary, warranty service.

When unpacking your VPON unit, check for missing or damaged items. If any item is missing, or if damage is evident, **DO NOT INSTALL OR OPERATE THIS PRODUCT.** Contact your dealer or us for assistance.

## Operate POS functions

### Important information

If you would like to have the POS function, Please contact your dealer or the manufacturer for a license key first.

### Under OSD interface operation

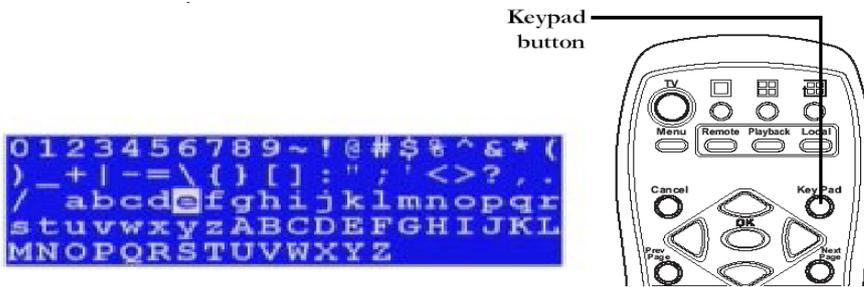

#### 1.1 How to get the License Key

1. There are two ways to grant POS license. One is key-in license key; the other one is plug-in a key-pro. So if you plug-in a key-pro you don't need to key in the license number again in the license setup menu.
2. Suppose your DVR should be had a license key. If you don't see any license key in the license setup of OSD menu for VP-4xx, VP-5xx VPON DVR system, please find out the license key number on the VPON warranty card. We will stick it on the back of VPON DVR machine. For VP-100 user, please plug-in a key-pro that come with VP-207 POS upgrade kit package into the print port of Motherboard.
3. Power on the VPON DVR

4. Press menu button on the controller and select system setup then press right arrow button to enter the License Setup function.

5. Press Key Pad button on the controller to display the on screen keyboard. Key in your Own License Key and press OK button to save it.

6. Select **Register Now** section and press the right arrow button on the controller. After registering you will get the POS function.

**Note: The license in the following is an example only. Each DVR should have different license number. Please contact us for get a license.**

7. VPON DVR will reboot after register POS license.
8. After restarting VPON DVR please check firmware version in the system information menu first. If the Firmware version of your DVR is "X . XX POS", you can continue to set up the other functions.

```
System Information

Disk Used-17640MB (44.1%)
Rec Period-158 hr
```

## 1.2 Device setup

If you use VP209 DVR/POS connection Cable package, please refer to the other VP209 install menu.

If you use VP-205 POS Signal Extender package, please refer to the other VP205 install menu.

If you use VP206 POS-to-Ethernet Package, please refer to the other VP206 install menu.

## 1.3 Alarm Setting

User can specify any keyword in the transaction data for Data Event Alerting. Such as **VOID** or **NO SALE**.

1. Press Menu button on the controller and select system setup then enter alarm setup function.
2. Select POS Event section.

```
Alarm Setup
Motion Detection
E-Mail
Video Popup(sec) - 12
Voice Call
POS Event
Set Action
```

3. You can define events by numeric characters such as selling prices or abnormal text, for example: "VOID", "NO SALE" or "999".... etc. Press "next page" on keypad to set up next POS unit if there is more than one cash register.
4. You can enter at most 20 POS events. Once the captured POS data contains one of the defined POS events, VPON triggers actions for the event. For example, you can enter VOID and NO SALE in the POS Event respectively.

5. Back to the Alarm setup menu and select the Set Action function to set up reaction when event was triggered.
6. Select the POS section in the Event List menu.

7. You can define how the VPON DVR reacts after specific data from the POS machine was captured.

8. **Beep**- beeps when the event was occurred.
9. **E-mail**- sends e-mail to the specified address when the event was occurred.
10. **Voice call**- dial a voice call to the specified number when the event was occurred

**Note:** Please refer the VPON DVR software user manual **Chapter3.3.13 Alarm setup** for more detail.

11. Back to the live video after setting alarm. You can try to cancel a transaction from the POS machine and VPON DVR should alerts.

**Note:** Because that the text was captured from the POS machine, you should check which text would be sent from the POS machine, then set appropriate text in POS Event.

## 1.4 Play recorded file

### Search By Text:

Search video files based on text (POS transaction data)

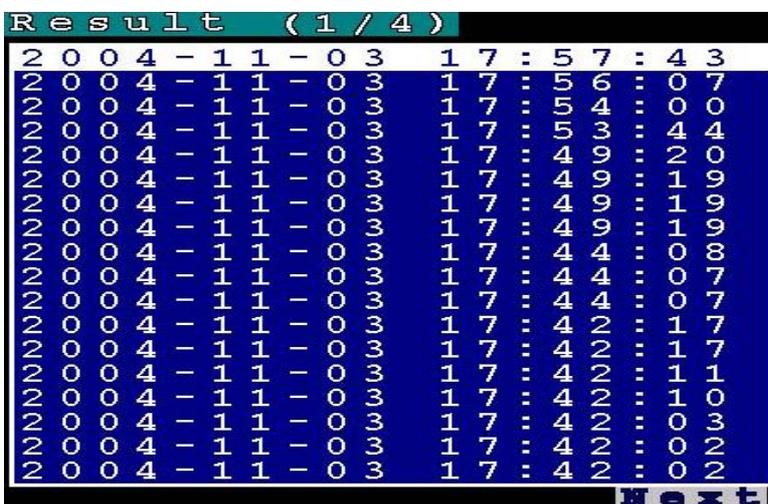

1. Press Menu button on the controller and select the Playback Menu.
2. Select the Search by Text section.

3. You can search by any keyword base on POS transaction data (text).
4. We recommend you to **narrow down** searching day, time and cameras to get faster response.
5. Press **OK** button on the controller when done to conduct the search.

6. After searching you will get the result. Press the right arrow button on the controller to play file.

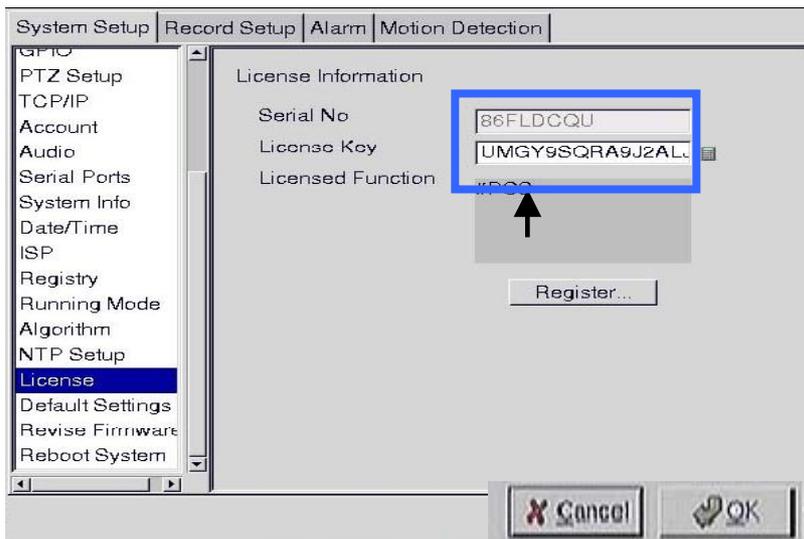

## 2. Under the GUI Interface:

### 2.1 Register:

1. There are two ways to grant POS license. One is key-in license key; the other one is plug-in a key-pro. So if you plug-in a key-pro you don't need to key in the license number again in the license setup menu.
2. Suppose your DVR should be had a license key. If you don't see any license key in the menu, For VP-4xx, VP-5xx VPON DVR system user, please find out the license key number on the VPON warranty card. We will stick on the back of VPON DVR machine. For VP-100 user, please plug-in a key-pro that come with VP-207 POS upgrade kit package into the print port of Motherboard.
3. Power on the VPON DVR
4. Click the "Set Up" button to display the System Setup menus and select the License section.

**Note: The license in the following is an example only. Each DVR should have different license number. Please contact us for get a license.**

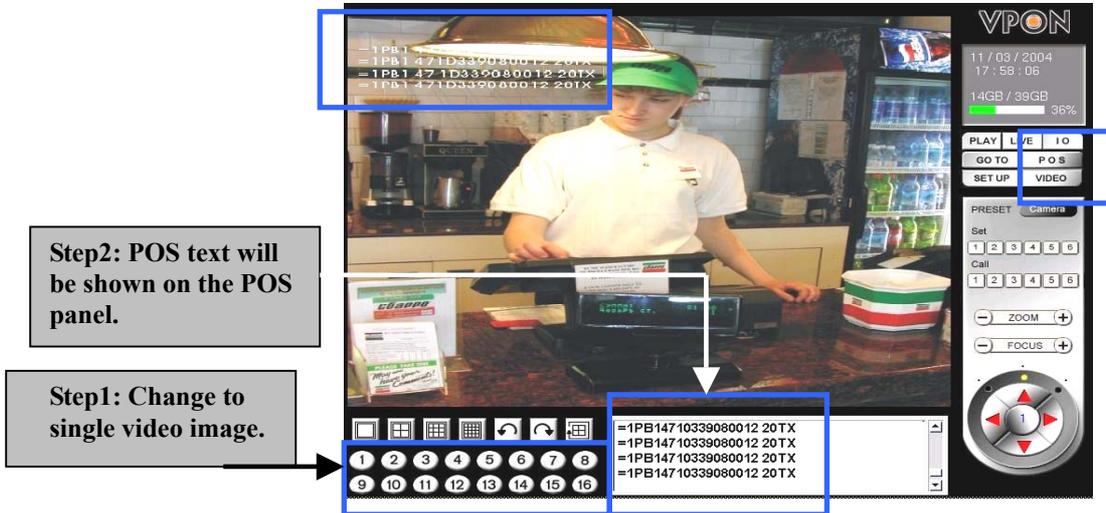

5. Key in your own license key.

**Note: If you don't have a keyboard connected to the system, you can use the on-screen keyboard to enter your license key. Double-click the field to display the on-screen keyboard. Use the mouse to enter characters for the required field.**

6. Click the Register button. You will get the POS function after registering
7. Back to the live display. Click POS button to display the POS Panel. You can try to send out some data from POS machine then POS text should show up with video.

**Note: If you want POS text show up on POS panel, please change to view single video first.**

## 2.2 Device setup
